Work Experience

2020-07 - present

Frontend Web Developer

FandKSavings, Ibadan, Nigeria

FandKSavings is a top Fintech company based in Ibadan, Nigeria. My team and I built a new web Dashboard Interface and we presently focus on:

- Fast and efficient payment system
- Test Driven Development (TDD)
- Easy to use UI

2020-06 - 2020-07

Remote Web Development Intern

Migrant Solutions, Abuja.

I was trained on how to use the MERN stack to develop Full Stack applications. We also worked as a team to develop several Full Stack apps.

- Training
- Team work

2020-04 - present

Web Developer

Eaveswall, Ibadan, Oyo State

My team and I built Eaveswall's campus blog with Gatsby.
We focused on optimization and great user experience
The project comprised of

- Content Management System
- Email Setup
- Newsletter Subscription

Projects

Legendary Empire Limited

Legendary Empire Ltd is a Nigeria company that provides services in different areas of life.
I developed and deployed their new website.

Chat

A collaborative project that debut a chat application built with NodeJs and WebSockets, all vanilla on the front

FoxyGreen

Foxygreen is an Agro-investment platform based in Nigeria.
My team and I built the mobile app using React Native
